# FFP Customs Wireless LED Roll Bar Light Mount Instructions

*FFP Customs' Wireless LED Roll Bar Light Mount is the product you didn't know you needed. The ability to shine a bright light inside your race car is its strong point. Installing it is a breeze, but maybe you need a little assistance in making sure you have a full grasp on the product, we have you covered.*

In the racing world, most of us do our best work at night. With most race cars featuring a roll cage, many times any interior lights the car would've had have been thrown out. That's great when removing weight or making room for said roll cage, but when you need to see inside the car, you are left in the dark. With these Wireless LED Roll Bar Light Mounts, you will never again be in the dark. Compatible with 1 ½", 1 5/8" and 1 ¾" roll bar tubing, these Wireless LED Roll Bar Light Mounts can go virtually anywhere, even in the engine compartment or trunk area where light is needed. Made from 6061 aluminum, the Wireless LED Roll Bar Light Mount comes in handy when you need to shed light on a situation. The Wireless LED Roll Bar Light Mount comes with 1 light, and uses (2) 2032 replaceable batteries and takes no more than 5 minutes to install and are designed and manufactured in the USA.

*The nuts and bolts of the Wireless LED Roll Bar Light Mount is that it does not contain any nuts or bolts. Each Light Mount includes a pair of 1/4-20 x 3/4" Stainless Steel Buttonhead screws.*

*Installation of an FFP Customs Wireless LED Roll Bar Light Mount literally takes minutes to accomplish. Using a 5/32 Allen wrench or socket, simply insert the LED bulb into the flat part of the mount, fit the other half around the roll cage, and then tighten the two together. It really is as simple as that.*

The FFP Customs Wireless LED Roll Bar Light Mount can be used inside a race car to illuminate a car's interior to look at a laptop or even find that fry you dropped while eating in the staging lanes. Where we really see this product being beneficial is with cars competing in events like Rocky Mountain Race

Week or Drag Week, and in Grudge Race cars where most of the racing takes place at night. We know most grudge cars are stripped of everything not needed to go fast, which includes interior lighting. These Wireless LED Roll Bar Light Mounts are ideal for any race car, and with a 5-minute installation, you will be back on the track in no time. The picture above shows one light being used. It is mounted on the roof tube, closest to the windshield.

Like all FFP Customs products, the Wireless LED Roll Bar Light Mounts are made with pride, right here in the USA.
